

SHREDDERS & PRE-SHREDDERS

Reliable Solution for Efficient Recycling

- Processing of plastics, wood, rubber, and industrial waste
- 3 variants for different needs
- Robust design, high performance, and economical operation

WOBIDE

WHC High Speed Mills

- High performance and versatile use
- Durable construction and long lifetime
- Easy maintenance thanks to the hydraulic system
- High-quality components from Schneider and ABB

WPS Slow-running single shaft shredder

- Universal solution for a wide range of materials
- Quiet and efficient operation thanks to low RPM
- Hydraulic system for easy maintenance
- High-quality components from Schneider and ABB

WT Slow-running twin-shaft shredder

- Robust construction and high performance
- 2 synchronized shafts for even shredding
- Silent running and minimal energy use
- High-quality components from Schneider and ABB
